

3 IS THE MAGIC NUMBER

3 SECONDS

Three seconds is the maximum amount of time an initial greeting between two dogs on lead should last to begin with.

3 MINUTES

Practice training exercises for around 3 minutes. This keeps the dog focussed and stops them getting bored!

3 ATTEMPTS

Give the training exercise 3 attempts, if your dog still can't grasp it; come back the next day so you don't frustrate your dog (or yourself!)

3 SESSIONS

Consistency works! If you can, do 3 sessions of training to ensure your dog has learned the behaviour! Train positively, train consistently, train little and often and most importantly, end the session on a high note in order to be successful next time!
